CHAITANYA ANANT

Deputy Manager – Cyber & Information Security

Ambernath (E), Thane 421501 | +91-8208699236 | csanant11390@gmail.com | www.linkedin.com/in/chaitanya-anant

PROFESSIONAL SUMMARY

Cybersecurity professional with 8.2+ years of experience in Application Security, VAPT, DevSecOps, and Risk & Compliance across BFSI and enterprise environments. Skilled in SAST, DAST, API Security Testing, Secure Code Review, and Vulnerability Management aligned with OWASP Top 10, ISO 27001, and PCI-DSS. Experienced in embedding security controls within CI/CD pipelines and driving Secure SDLC practices across cross-functional teams.

CERTIFICATIONS

CISM | CEH v11 | ECIH v2 | ISO 27001 Lead Auditor | PCI-DSS v3.2.1 Implementer | Web Security – IIT Bombay

KEY ACHIEVEMENTS

- Integrated SAST/DAST tools into CI/CD pipelines at NSE, reducing vulnerability discovery time by ~40% through shift-left security practices.
- Supported ISO 27001 and PCI-DSS audits across multiple organizations, achieving zero critical non-conformances.
- Conducted 50+ web, mobile, and API penetration tests; critical findings remediation reduced organizational risk exposure by over 60%.
- Led PoC evaluations for 10+ enterprise security tools (SAST, DAST, SCA, SBOM), providing data-driven recommendations for security investment decisions.
- Software Supply Chain Security: Drove SCA/SBOM adoption across CI/CD pipelines to identify vulnerable and license-risk open-source dependencies, strengthening third-party and open-source risk posture.

PROFESSIONAL EXPERIENCE

Deputy Manager – Cyber & Information Security | National Stock Exchange of India (NSE) *Oct 2023 – Present*

- Lead Application Security governance for NSE's digital ecosystem; conduct SAST, DAST, and API security assessments across 30+ web and mobile applications, driving a 35% YoY reduction in critical vulnerabilities.
- Spearhead DevSecOps transformation — integrated CheckmarX SAST and Fortify WebInspect DAST into Jenkins/GitLab CI/CD pipelines, reducing MTTR by ~40%.
- Define and enforce Application Security Standards, Secure Coding Guidelines, and Secure Configuration baselines aligned to SEBI CSCRF, ISO 27001, and NIST CSF.
- Conduct PoC evaluations for enterprise security tools (SCA, SBOM, DAST) and present strategic recommendations to senior leadership.
- Prepare executive dashboards and risk governance reports; collaborate cross-functionally to close security gaps within SLA timelines.

Senior Cyber Security Engineer | Reserve Bank Information Technology (ReBIT) *Aug 2022 – Oct 2023*

- Executed black-box and grey-box penetration testing for RBI's critical IT infrastructure; identified and facilitated remediation of 100+ high/critical vulnerabilities.
- Performed security configuration reviews, network VA, and malware analysis using Recorded Future Sandbox, Virus Total, and Hybrid Analysis.
- Contributed to GRC activities — risk assessments, framework compliance, and change management using RSA Archer and ServiceNow.

Assistant Manager – Cyber Security | TATA Communications Ltd *Feb 2022 – Aug 2022*

- Led application security testing engagements for enterprise clients; delivered VAPT reports with prioritized remediation roadmaps aligned to OWASP Top 10 and SANS 25.
- Collaborated with development teams to embed secure coding practices, reducing recurring vulnerability patterns by 25%.

Information Security Analyst | AQM Technologies Pvt. Ltd., Mumbai *Sep 2018 – Feb 2022*

- Delivered 3+ years of hands-on penetration testing (web, mobile, API) and secure code review for financial sector and enterprise clients.
- Developed and maintained security assessment methodology incorporating OWASP Top 10, SANS 25, and CIS benchmarks.
- Built foundational expertise in SAST/DAST tooling (CheckmarX, Acunetix, HCL AppScan) and mobile security testing (MobSF, APK Tool, Dex2Jar).

CORE COMPETENCIES

- Application Security (VAPT) • DevSecOps & Shift-Left Security • GRC & Risk Governance
- SAST / DAST / SCA / SBOM / Malware Analysis • Penetration Testing (Manual + Auto) • Security Strategy & Leadership
- ISO 27001 | NIST CSF | PCI-DSS • Secure SDLC & Secure Coding • Stakeholder & Team Management
  • Software Supply Chain Security

TECHNICAL SKILLS

- VAPT: Burp Suite Pro, Nmap, SQLMap, OWASP ZAP, Metasploit | SAST: CheckmarX, OpenText Fortify SAST
- DAST: Fortify WebInspect, HCL AppScan, Acunetix, Netsparker | VA/Scanning: Nessus Professional, Qualys
- SCA/SBOM: CheckmarX SCA, Sonatype SCA, Sonatype SBOM Manager | API Security: Postman, SoapUI, Appsentinel
- Mobile Security: MobSF, JADX, APK Tool, Dex2Jar, ADB Shell, Genymotion | Malware Analysis: Recorded Future Sandbox, Virus Total, Hybrid Analysis
- GRC/ITSM: RSA Archer, ServiceNow | DevSecOps/CI-CD: Jenkins, GitLab CI, Docker (security scanning), Trivy
- OS/Platforms: Windows Server 2016/2019, Kali Linux, RHEL, Fedora, Santoku | Network/Other: Wireshark, VMware

EDUCATION

- PG Diploma in IT Infrastructure, Systems & Security (DITISS) — CDAC Mumbai, 2017–18
- Web Security Certification — IIT Bombay, 2024
- B.E. (Computer Engineering) — North Maharashtra University, 2016
